

**SAC 3692IP**  
TCP/IP UHF Long Range  
Proximity Reader

*Long-range proximity reader designed for indoor/outdoor use, aesthetic, high performance and reliability in any application in the field of access security.*

### Featured specifications

- UHF proximity reader
- Wiegand 26/34 bit communication
- For indoor/outdoor use
- 15 meter reading range
- Audible signal (Beeper)
- TCP/IP connection for easy configuration

<b>Frequency:</b>	UHF - 865-928MHZ
<b>Power Range:</b>	0 - 30 dBm
<b>Supported TAG protocols:</b>	ISO 18000-6B y ISO 18000-6C
<b>Communication:</b>	Wiegand 26/34/TCP/IP 100Mb
<b>Operating range:</b>	15 mts / 12 dbi
<b>Reading time:</b>	<6 msec
<b>Power:</b>	9 - 12 VDC
<b>Consumption:</b>	4W
<b>Working Temperature:</b>	0°C / +60°C
<b>Working Humidity:</b>	10 / 90%
<b>Termination:</b>	White PVC
<b>Dimensions:</b>	445 x 445 x 70 mm
